

12 King's Bench Walk
Seminar Programme 2007

**Maximising Damages – Annual Claimant Conference
26 April 2007, London**

Aims and Learning Outcomes

This seminar will give you useful updates and guidance in respect of the following:

- Indexation of Periodical Payments
Which indexes to use and when to use them. Frank Burton QC has recently argued the issue of which indexes may be used when seeking indexation of periodical payments.
- Multipliers and the New Ogden Tables
Richard Methuen QC is a member of the Ogden Working Party and will introduce the changes made to the calculation of damages claims by the new Ogden Tables; he will discuss multipliers generally.
- 5th EU Directive on Motor Insurance
Changes to claims handling as a result of the 5th EU Directive on Motor Insurance. The new 5th directive introduces a new procedure for responding to claims which imposes substantial penalties for non compliance. Harry Steinberg will explain the changes and point out the opportunities they bring to both parties.
