

12KBW International and Travel team attend the PEOPIIL Annual Conference 2019

The 12KBW International and Travel team recently attended the PEOPIIL Annual Conference in Amsterdam. This year's conference had a particular focus on traumatic brain injury with talks on the impact of aging on brain injury, brain injury in new-borns and the impact of brain injury on bi-lingual individuals. Phillip Mead spoke on the second day of the conference and provided practitioners with an update on Brexit.

The conference was an excellent opportunity for 12KBW to strengthen existing and build new relationships with colleagues from around the world.

The event was attended by Phillip Mead, Patrick Vincent, John-Paul Swoboda, Aliyah Akram, Max Archer and Spencer Turner.
